Qualifications

As a web developer I created a website that acts as an online interactive journal for students to document and record their works. A typical day in the workplace consisted of reviewing site features to work on, choosing a task, coding, and testing the feature if completed. As a former educator of seven years I also possess the soft skills necessary to be a part of a successful team, the grit to work through challenges, the responsibility to self-monitor myself, and the temperament to accept constructive criticism.

Work Experience

[STARBASE Austin (Texas Military Department)]
[Web Developer]
[01/2020] – [08/2020]

- Incorporated over 90% of client wish list for website capabilities.

- Used SCRUM to plan out project completion within 5 months.

- Reduced the amount of time that the client would use to create user profiles by over 90% by including a CSV file upload and using the csv-parse node package.

- Built an Express REST API and tested routes using Postman.

- Linked REST API to MongoDB using mongoose.

- Used the React JS Framework to create a single page front-end.

- Utilized React Hooks, such as useState, useEffect.

- Set up user authentication and authorization using bcryptjs.

- Reduced CSS code by 50% using reusable code created with Sass.

- Utilized a mobile-first, responsive web design approach.

- Managed project using version control/git.

[Garland ISD & Austin ISD]
[Elementary Teacher]
[2014] – [2019]

- Helped mold the leaders of tomorrow

Education and Professional Training

[teamtreehouse.com / online bootcamp]
[Tech Degree: Front End Web Development]
[02/2019 – 09/2019]

[The University of Texas at El Paso]
[Bachelor of Arts: Organizational and Corporate Communication]
[2007 - 2012]

Awards

[Best Social Impact Award]
[Austin Women Who Code- Diversity Hackathon]
[09/2019]

• I participated in a hackathon on a team of three to build a website. We built a web app that helps find affordable housing in Austin, TX for people that qualify. I worked on the front-end.

[Campus Teacher of the Year]
[Garland ISD]
[2017] – [2018]

Personal Interests

- Working out / running - healthy body, healthy mind

- Traveling / Road-tripping – I enjoy visiting places I've never been before

- Hiking – with my dog and wife

- Watching Sports – football and basketball are my favorites

- Playing strategy games – chess and brain teasers
